12th March 2025,

Dear Parents/Guardians,

We are pleased to inform you of our intention to share with you the findings from the recent Planet Youth Survey, a key resource aimed at supporting the health and well-being of young people in our community. The survey, conducted last year with over 2,500 14-16 year-olds within schools in the North county Dublin region, provides valuable insights into the protective and risk factors affecting their lives across areas such as family relationships, school engagement, peer influences, and leisure activities.

At Lusk Community College, we believe that understanding these factors is essential in creating a supportive environment where our students can thrive. The data gathered is a powerful tool for parents, educators, and the wider community to collaborate in addressing the challenges our young people face and fostering their positive development.

To make this information accessible and actionable, we will release detailed findings through a newsletter over the next number of weeks, focusing on the following themes:

1. Family Relationships and Parental Support – 19th March
2. School Engagement and Culture – 26th March
3. Leisure Time Activities and Social Connections – 2nd April
4. Substance Use and Mental Health – 9th April

We will also be sharing the findings with our students throughout the school at the same time. Each week, we will provide a summary of key findings for the theme, along with practical recommendations and resources to support your understanding and engagement.

We encourage you to take the time to review these reports and to join us in discussions on how we, as a community, can better support our young people. Together, we can ensure a brighter, healthier future for all.

To that end, following the posting of all the data, we will be seeking some feedback from parents and will request that a small number of you will agree to take part in a focus group to come to the school and discuss the findings.

Should you have any questions or wish to discuss these findings further, please do not hesitate to reach out to Mr. Floody at waynefloody@luskcc.ie

Thank you for your continued support.

Yours Sincerely

Wayne Floody
